

# Code Busters Practice Test

You have 45 Minutes to complete this test

Record your time when you finish the first question

For added realistic test conditions, have someone else know the answer to the first question and tell you if you are correct or incorrect. If incorrect, you may try again. Record the time when you get the question correct.

For the purposes of this test, A=0,B=1,C=2... Z=25

For mono-alphabetic substitution cyphers the only constraint on ciphertext alphabets is that no letter may decrypt to itself

You may need the following table
