I I

Rubric

General Guidelines: if the paper is oriented incorrectly, grading remains the same, as location is measured relative to the center hexagon. There are no deductions for extraneous marks. Shaded boxes are not to be awarded out for that particular item. Where the item has a number in parenthesis after it, there are several similar items and the points for each of the item should be added up in the following columns.

	Obviously Attempted (0/1)	Location (0/1) (is it in/touching the correct hexagon relative to the center hexagon)	Position (within/relative to the hexagon) (0-3)	Correct writing instrument used (0/1)	Size (0-3)	Shape (0-3)	Total points earned
Blue pen W							
Blue pen I							
Blue pen D							
Inscribed red D							
Blue pen I							
Blue highlighter line segments (to left of paper) (10 total)							
Red shading							
Blue highlighter spiral							
Blue pen spiral							
Red pen line segments under spirals (2)							
Yellow highlighter shading							
Blue pen hexagon edge line segments (11)							
Red pen hexagon edge line segments (2)							
Black sharpie hexagon edge line segments (3)							
Black pen hexagon edge line segments (4)							
Silver sharpie shading							
Central hexagon pencil line segments (3)							
Blue highlighter oval							

	Obviously Attempted (0/1)	Location (0/1) (is it in/touching the correct hexagon relative to the center hexagon)	Position (within/relative to the hexagon) (0-3)	Correct writing instrument used (0/1)	Size (0-3)	Shape (0-3)	Total points earned
Red pen waveform							
Black pen star							
Red pen S							
Red pen C							
Red pen I							
Red pen O							
Red pen L							
Red pen Y							
Black sharpie triangle segments (3)							
Silver sharpie line segment under black triangle							
Small pencil circles (4) near bottom left of page							
Inscribed pencil rose curve lobes (6)							
Blue line segments within hexagon (4)							
Blue+yellow highlighter shading							
Inscribed pencil circle							
Blue highlighter shading around pencil circle (6)							
Pencil zigzag							
							_____/420 possible points
